

Sweenija Reddy Gundra

COMPUTER SCIENCE & DATA SCIENCE STUDENT

sweenijareddy14@gmail.com • LinkedIn • GitHub

PROFILE

Computer Science & Data Science student building a strong foundation in programming, data structures, web development and problem solving. Experienced through academic and personal projects using C, Python, SQL and web technologies, with a focus on learning by building and understanding how systems work underneath the surface.

EDUCATION

Bachelor’s Degree in Computer Science & Data Science

SAI UNIVERSITY, CHENNAI.

2025 — 2029

TECHNICAL SKILLS

Programming	C, Python, SQL
Web	HTML, CSS, JavaScript, Flask
Data Structures	Arrays, Lists, Stacks, Queues, Binary Trees
Tools	Git, GitHub, VS Code, n8n

PROJECTS

Cedar Nest Hill Lodge [WEB PROJECT](#)

[Live Site ↗](#) [GitHub ↗](#)

Developed a responsive multi-page hotel website featuring accommodation information, a gallery, booking enquiry form and responsive navigation. Designed to present property information clearly while providing visitors with an accessible way to make booking enquiries.

- HTML5
- CSS3
- JAVASCRIPT

Appointment Management [C PROJECT](#)

[GitHub ↗](#)

Built a terminal-based hospital appointment management system supporting appointment creation, viewing, searching and deletion with persistent binary-file storage. The system organizes appointment records and makes common record-management operations easier to perform.

- C
- STRUCTURES
- FILE HANDLING

Corporate Org Chart Tool [COLLABORATION PROJECT](#)

[GitHub ↗](#)

Contributed to a collaborative C project that models corporate employee hierarchies using a binary tree, with operations for adding, searching, updating, displaying and deleting employee records. The hierarchical structure makes organizational relationships easier to represent and search.

- C
- BINARY TREES
- RECURSION
- CRUD
